

# MONTANA WETLAND STRATEGY

---

## **Assisting Local Governments Working Group Direction**

**Strategic Direction #5**: The Montana Wetland Council (MWC) will assist local government entities with planning and growth management information, resources, and tools needed to protect wetlands and riparian areas, particularly in regions with rapid population growth and development potential.

**Ideal Outcome**: Local governments are knowledgeable, well equipped, and supported to conserve and protect wetland and riparian resources as they plan, develop, and implement programs and policies that enable them to cope effectively with rapid growth and development.

**Working Group Chair**: TBD

**Next Meeting Date**: TBD
